Early risers yesterday morning were fortunate as they were given an unusual opportunity to witness a peculiar and startling display of northern lights. The power of the aurora borealis was sweeping the whole sky from north to south, giving forth a brilliant, penetrating light, almost as strong as a searchlight. The sky over the large stretch of water in the lake, due either to the water or peculiar atmospheric conditions, immediately above the lake, was burning red with long red flashes darting continuously across the horizon. Many people who are habitually asleep at an early hour of the morning assert that this particular display was the most phenomenal of the sky they had ever seen.

DEATH AT THE POST.

Accident to Richard Fredette of Middlebury Results Fatally.

Richard Fredette of Middlebury, a member of Company I, Vermont National Guard, died at ten o'clock. His death was the result of injuries received while swimming in the lake about a month ago. He dived in shallow water, striking on a rock, and a broken neck was the result. Since the accident the 37-year-old man was in a critical condition at the hospital, hovering between life and death most of the time. It was only by a very difficult operation that his life was prolonged for even a month. He has been almost entirely paralyzed since the accident.

Yesterday afternoon at 2:30 o'clock the body was brought to this city. The hearse was surrounded by four guards and conducted along the officers' row out of the reservation accompanied by the Second cavalry band. While the procession passed down the highway, several hundred medical men who were drilling on the parade ground stood at attention and the national colors were brought to half mast. Few dry eyes were to be seen. The hearse was delayed in the city.

The physicians at the hospital did everything possible for the boy and he had a nurse night and day during his illness. The funeral will be held at his late home in Middlebury at 10:30 o'clock Friday morning. A bugler has been detailed to Middlebury for the funeral to sound taps over his grave.

ADDING A STORY.

Unique Method Employed in Enlarging Queen City Cotton Mill.

Contractors are busily engaged putting the fourth story on the main mill of the Queen City Cotton company's plant. Although the mill is now nearly completed as rapidly as conditions permit, it is the opinion of the officials that at least six months will be required. This time is necessary because the work will be kept in running condition as no shut-down could be contemplated at this time.

The plans call for the cutting of the roof into four sections, and the raising of one section at a time. The first lift will be five feet. When this is raised, the floor will be laid and the shafting will be attached below.

After the four sections have been handled in the foregoing manner, the workmen will be made fast against the cold, the roof will be raised again and the side walls built.

Contractors from Massachusetts, who make a specialty of mill work, are engaged in carrying out the plans.

DIVORCES WANTED.

Two Petitions, One a Man, Alleged Intolerable Severity.

A petition for a divorce, the petitioner being Rose E. Laffan and the petitionee William Laffan, was entered at the county clerk's office yesterday. The couple were married in Underhill in 1898 by the Rev. J. D. Shannon, and the libellant claims that since that time she has faithfully performed her duties as a wife, but that the libellee has neglected his part of the marriage covenant. She wishes to resume the use of her maiden name.

Homer M. Parker is suing Minnie Parker, his wife, for a divorce, according to a petition that was also entered at the county clerk's office yesterday. The petitioner claims that she has been married to him in Maine and took him to Montpelier, where he was locked up in Washington county jail, and later taken to Fort Ethan Allen to stand trial.

Butterfly, and her residence was in Montpelier. The petitioner claims he has kept the marriage covenant, but states that his wife has violated the same by treating him with intolerable severity.

DESERTION CHARGED.

Alleging desertion and refusal to support, Virginia E. Potvin is suing her husband, Victor Potvin, for a divorce. The suit was filed at the county clerk's office yesterday. The petition states that the couple were married in Winooki in 1894, the day after J. F. Audette, and that they lived in several places after the marriage, in Burlington, Rouses Point, etc. The petitioner claims that she has kept the marriage covenant faithfully, and that the libellee has not. She asks for the custody of their two children, girls, aged 17 and 16, and also the right to resume her maiden name.

ASKS FOR FORECLOSURE.

J. J. Enright Brings Chancery Suit for Non-Payment of Note.

A chancery case, John J. Enright vs. Joseph Bacon, Sr., Leon A. Bacon, Margaret Bacon, Lawrence C. Bacon, Rose Bacon and E. E. Clarkson, was entered at the county clerk's office yesterday. The case is a petition for foreclosure. The petitioner, John J. Enright, alleges that Joseph Bacon, Sr., Leon A. Bacon, Margaret Bacon, Lawrence C. Bacon and Rose Bacon duly executed to the petitioner a mortgage deed of certain land situated in this city, conditioned for the payment of a promissory note dated December 4, 1914, signed by Joseph A. Bacon, Sr., Leon A. Bacon and Lawrence C. Bacon for the sum of \$5,000 and payable to John J. Enright, or order, one year after date, with interest semi-annually at five per cent. This is now fully due and owing and has not been paid.

The petitioner further claims that the property mortgaged is insufficient as adequate security for the payment of the debt. He also claims that he has been informed and believes that the mortgagors at some date subsequent to the execution and delivery and record of the foregoing mortgage, E. E. Clarkson of this city caused an attachment to be placed upon said property in a suit brought by him against Lawrence C. Bacon, one of the petitioners, and that Mr. Clarkson has recovered judgment in the suit and has caused execution to be taken out, and by reason of attachment and execution claims some right, title or interest in said property.

John J. Enright prays that the equity of redemption of the petitioners in the premises may be foreclosed, agreeably to the provisions of the law, and he further prays that the petitioners be directed to appear in court and show cause why the prayer of the said John J. Enright should not be answered.

SIGNAL CORPS MEN COMING

Some Preparations Being Made in Anticipation of Their Arrival.

Some temporary and provisional arrangements are being made by the college authorities in anticipation of the arrival soon of men to train at the university for signal corps work. Nothing at all definite is known about the plans that are made for the reception of the men, but it is believed that the signal corps men when they arrive here, which will be soon, to look over the ground.

One section of the dormitory, Converse Hall, has already been reserved for the signal corps men, and another section will probably be reserved if necessary. It is possible that if the men come they will be lodged with five or six in a room, rather than only two, as the case has been heretofore. The signal corps men also furnish many of their own instructors, for everything depends on the decision of the signal corps men when they arrive here, which will be soon, to look over the ground.

The University of Vermont has been one of the six colleges of the United States to be chosen as a training station for signal corps men, and it is one of the three in New England to have this distinction of being so chosen by the government.

Part of the evening was taken up by the use of screens for the occasion.

There was no formal program, but at the conclusion of the dinner Dean G. H. Perkins expressed the sentiment of his only the university, saying that the necessity of parting with Dr. Benton, they were profoundly thankful that one of their number had been called to such an important service.
